What is your Cultural Background

We are all Different... which is a good thing

Cultural competence is defined as the process by which individuals and systems respond respectfully and effectively to people of all cultures, languages, classes, race, ethnic backgrounds, religions, and other diversity factors in a manner that recognizes, affirms, and values the worth of individuals, families, and communities and protects and preserves the dignity of each.

**It is not our
differences
that divide us.**

**It is our inability
to recognize, accept,
and celebrate
those
differences.**
